58 LOGISTICS INFORMATION

Dear Customer,

I would like to thank you for our cooperation during 2021. And what a year it has been!

We have not only experienced the second year of Covid, but we have also lived through a year with high demand for our products.

This worldwide demand for our raw materials has again resulted in an extremely high rise of our costs.

As all others in the wood flooring business, we are doing our best to adjust to the rapidly changing market circumstances – that be both supply and price of our raw materials.

Together with you we feel we have managed this to our best ability.

Looking into 2022, we know for a fact that the prices you and our customers will have to pay for our products will be substantially higher than we foresaw when 2021 started. This version of our Boen pricelist also reflects this.

You will in here find our newest product developments. We are introducing a new lacquer called Live Matt Plus in tree colors- our next generation of matt lacquer. In our opinion, beautiful and authentic colours – developed to meet the demand from the market.

To enhance the natural and tactile beauty of the wood, we in addition have developed some products with a double brushing.

In order to meet the demands for smoked products, our Product Managers have developed some beautiful semi-smoked products. Look them up!

We are convinced that all our new products for 2022 will be well received by you and your customers!

All these new products combined with the products you know from previous years – you will hopefully be well positioned to offer what your market requires.

Entering 2022 with all the challenges and possibilities ahead of us, rest assure that we in Boen will be a partner you can rely on.

As always, we can promise to deliver a beautiful, healthy, and sustainable quality floor.

We will never compromise on our responsibility towards both you and the environment.

I wish you all the best for 2022!

Best regards

A stylized handwritten signature in black ink.

GEIR WÅLAND
CSO Bauwerk Group

2022 - What's new?

Live Matt Plus

Wooden floors with a low gloss level continue to be a strong trend.

Slightly more matt than our BOEN Live Matt and with a natural look that still offers a lovely degree of elegance.

This attractive and protective surface treatment can now also be applied to brushed surfaces, giving the floor even greater impact, and intensifying its soft matt quality. BOEN Live Matt Plus also penetrates the smallest pores of the wood, meaning it is now even possible to seal planks with a bevel.

Oak Soft Brown

Oak Fresh White

Oak Medium Grey

Semi smoked Oak

Our Oak Semi smoked products had a very positive feedback, so this year we are expanding this special range of products. Our two new products are wide planks with a top layer made from precious oak that has been 'smoked'. This means that only the top layer is smoked to achieve a soft, dark base tone

Oak Semi Smoked

Oak Semi Smoked white

Double brushed products

Brushed products are very popular, not least because they combine an expressive look with a very attractive feel.

With a double brushed surface, they now quite literally take things to a deeper level. Double brushed for an intensive look.

This surface conveys a special kind of naturalness. Its rustic, expressive look gives the wood a noticeably more intense appearance.

Oak White Nights

Oak Indian Summer

Styles icons

Throughout this pricelist you will find our products marked with the style symbols (below), which indicate an interior style that a particular floor matches the most. Here is what each symbol represents:

Detailed information about features of these styles, please refer to our webpage at boen.com

N **Nordic** - Clean lines. Space and tranquility

R **Rustic** - Authentic ambience rooted in history

U **Urban** - Strong personality. Colorful depth

C **Classic** - Calm and orderly. Room for creativity

New icons

We have introduced a new icon system to help you navigate faster within this new pricelist. This is a summary of what they mean:

This icon indicates our veneered skirtings. More information on page 42.

This icon indicates our skirtings made from parquet. More information on page 43.

This icon indicates a new product that is introduced in 2022.

"Available as 3-strip" - indicates, that this certain product is also available in 3-strip format.

"Available as plank 138" - indicates, that this certain product is also available in plank 138 format.

"Available as plank 181" - indicates, that this certain product is also available in plank 181 format.

"Available as Castle plank" - indicates, that this certain product is also available in Castle plank format.

"Available as Chalet/ Chaletino" - indicates, that this certain product is also available in Chalet/Chaletino format.

Oak planks

138, 181 mm

- ▶ Combine the three widths (138, 181 and 209) for an attractive overall appearance.
- ▶ Floor heating systems: suitable to very suitable.
- ▶ Performance classification (detailed info on page 50): 1-2.
- ▶ Fire protection classification: Cfl-s1 and Dfl-s1 depending on surface treatment.
- ▶ 5G Click connection.

Dimension:

14 x 138/ 181 x 2200 mm

Top layer: ca. 3.5 mm

Middle layer: 8.8 mm

Bottom layer: 1.7 mm

 Available as 3-strip.  Available as Castle plank.  Available as Chalet/ Chaletino.

! Within this product the Animoso grading can naturally contain sapwood and discolouration, which may be reduced by the pigmentation colour within the surface finish.

For Espresso products:

Cavities, cracks and marks in the surface are part of the product and form its specific character.

The products can contain big knots, cracks, and filled defects which have been worked out by hand.

▶ Further information on our veneered skirtings: p.42.

Plank 138 mm: 1 pack = 10 boards = 3.04 m² = 23.5 kg, 1 pallet = 42 packs = 127.68 m². We reserve the right to deliver 2 boards with slotted top layer in each pack. Minimum length of slotted surfaces is 600 mm. We can only deliver complete packages.

Plank 181 mm: 1 pack = 8 boards = 3.19 m² = 25 kg, 1 pallet = 40 packs = 127.6 m². We reserve the right to deliver 1 board with slotted top layer in each pack. Minimum length of slotted surfaces is 600 mm. We can only deliver complete packages.

◆ Further information on our skirtings made from parquet: p.43. ○ Information on our veneered skirtings: p.42.

Contents of a pack: 10 x 70 x 470 mm = 40 pieces right-hand strips and 40 pieces left-hand-strips. Each carton can contain two half divided strips.

1 pack = 2.63 m² = 15 kg. 1 pallet = 36 packs = 94.68 m².

Traffic

12,5 mm

- ▶ The particularly wear-resistant 1-strip parquet flooring, with a top layer of approx. 5.5 mm is ideal for high-traffic areas, such as shops, restaurants, public buildings, etc.
- ▶ Floor heating systems: very suitable.
- ▶ Performance classification (detailed info on page 50): 3.
- ▶ Fire protection classification: Cfl-s1.
- ▶ Tongue/ groove connection.

Dimension:

12.5 x 70 x 470 mm

Top layer: ca. 5.5 mm

Bottom layer: 7.0 mm spruce

Boflex

- ▶ The premium area-elastic floor system for high level performance. With unique progressive shock absorption, Boflex offers uniform performance for adult professionals as well as young athletes. The construction can withstand an almost unlimited weight load and is extremely stable.
- ▶ Floating installation on even sub-floor, e.g. screed.
- ▶ Top layer BOEN parquet flooring with double tongue and groove profile and bottom elastic strips.

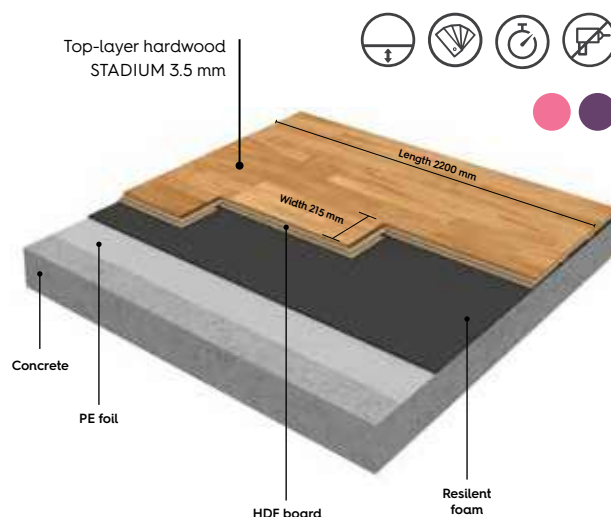

- ▶ Boflex Stadium Construction height: 28.0 mm
Dimension: 28 x 137 x 2200 mm
Top layer: ca. 3.5 mm
- ▶ Boflex Olympia Construction height: 30.0 mm
Dimension: 30 x 137 x 2200 mm
Top layer: ca. 5.5 mm

Actiflex

- ▶ When flexibility and comfort is key, and you need a quick turnaround when renovating, Actiflex is the right choice. It is easy to extend, pick-up and relocate.
- ▶ Actiflex is an area-elastic sports floor that guarantees flexibility and comfort.
- ▶ Can be installed on a flat, firm and self-supporting subfloor or an existing floor. Maximum size of an area - 600 m²
- ▶ Quick and easy installation with the 5G Click locking system.

- ▶ Actiflex Stadium Construction height: 29.0 mm
Dimension: 21 x 215 x 2200 mm
Top layer: ca. 3.5 mm

*BOEN performance classifications:

Depending on the field of application of our parquet floorings it is subject to different stress and wear. The Brinell hardness of the wood, the width of the boards, the structure, the thickness of the top layer as well as the surface treatment (sealing or oil treatment) are significant for the stability and durability of your flooring.

Performance classification 1 = normal

Hardwood floors in living areas subject to normal usage. Exception: Wet areas and entrance areas.

Performance classification 2 = medium

Hardwood floors in living areas, in administration, meeting and conference areas, kindergartens, consulting rooms etc. subject to average usage.

Performance classification 3 = heavy

Hardwood floors in heavily frequented areas such as shops, restaurants, entrance areas, schools, conference halls, dance halls, etc.

2V bevel:

Bevel on longitudinal side of the board (total of 2 on one board).

4V bevel:

Bevel on all 4 sides of the board.

Surfaces

BOEN places considerable emphasis on protecting the environment during all phases of production. Neither lacquer nor oil emit gases which are harmful to humans or to the environment. BOEN offers its customers a wide range of surface finishes.

Live Matt lacquer

This 6 layer Live Matt sealing with a very low gloss level makes the surface look "as oiled". A natural look combined with the advantages of a scratch-resistant finish.

Protected by

Protected by Bona
Live Matt Lacquer is supplied by Bona.

New

Live Matt Plus

For us, protection and naturalness go hand in hand. And we're putting that to the test once again with the new BOEN Live Matt Plus. This attractive and protective surface treatment can now also be applied to brushed surfaces, giving the floor even greater impact, and intensifying its soft matt quality. BOEN Live Matt Plus also penetrates the smallest pores of the wood, meaning it is now even possible to seal planks with a bevel.

Live Natural oil

Live Natural is a natural surface treatment containing oils such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla). Deep penetration of the oil into the wood is ensured by two-time application on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the Air-Plus Process. The floor has extremely good protection properties against liquids.

Live Pure lacquer

Live Pure is the new innovative product development from BOEN: Oak planks with Live Pure surface treatment have a very natural look with ultra matt finish and very good protective characteristics. Live Pure protects the floor from dust, dirt and liquids thanks to a special treatment applied to the surface which leaves the look of the hardwood floor smooth, clear and naturally light – almost like untreated wood.

BOEN gradings

Visit our virtual product finder to get a better impression of the gradings.

boen.com/products

Wood is a natural product. Some types of wood – beech, for example – have a relatively calm grain. Others, like oak, are rich in structure, with a spectrum of calm to rustic. We offer a wide selection for you to choose from.

CALM

Consistent growth; only small knots; standing or lying year rings.

LIVELY

Natural grading with small to medium knots; a limited spectrum of colours due to sapwood.

RUSTIC

Structure and vivid growth; larger knots; sapwood and heartwood; a rich spectrum of colours.

	CALM	LIVELY	RUSTIC
<i>Adagio, Select</i>			
<i>Andante, Nature</i>			
<i>Finale, Concerto, Contract, Basic</i>			
<i>Animoso, Country, Vivace, Rustic, Traditional</i>			
<i>Marcato, Baltic</i>			
<i>Vivo, Canyon</i>			
<i>Espressivo</i>			

Planks, Finesse and Maxi are graded according to EN13489, free class (Boen class).

Longstrip, Prestige and Traffic are graded according to ○, △ and □ after EN13489.

Wood is a product of nature – each tree has its own structure and individual colour combination. An image or a sample will therefore never be able to give you a complete picture of the finished floor. Please also note that the colour may change when exposed to light. As a guideline, darker wood species will get a more golden tone, whereas lighter species will become slightly darker. Cracked knots are filled with putty, so small gaps between the putty and wood may appear.

Make sure you enjoy your hardwood floor for a long time to come

Our floor is made of natural materials, and therefore it is affected by climate and surroundings. We make sure your floor is ready to meet all the challenges that everyday life has to offer, but also the changing climatic conditions we have year round.

25

Year
Warranty

BOEN Quality

We produce parquet flooring with top level of quality. With a monitoring system that checks every aspect of production, we are so sure our production meets the highest standards of quality that we give a **25-year warranty**.

Please check our website at boen.com for complete information.

First Aid

First aid for your floor

For scratches or marks, special repair sets are available.

- More information can be found at boen.com

If the surface of your floor has lots of visible marks on it after a number of years, it can easily be sanded and re-sealed or oiled. Contact your hardwood floor installer.

Always a good choice: 3-layer parquet flooring

1 Top layer

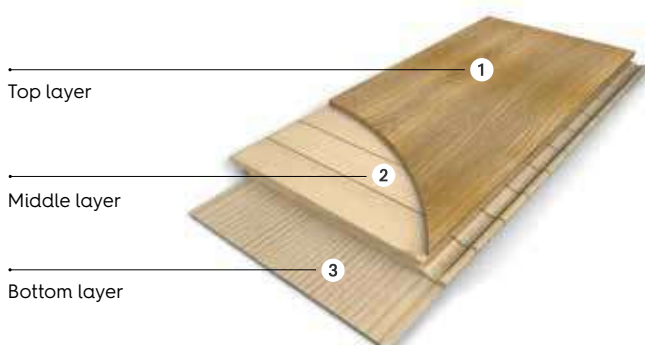

Environmentally friendly use of fine woods only for the top layer. Did you know that six 3-layer hardwood floors can be made from one solid wood floor?

2 Middle layer

Carefully selected strips made of spruce, with standing or half-standing year rings, offer high dimensional stability.

3 Bottom layer

The underlay of spruce veneer is manufactured from one piece and allows stable back pull.

5G

Click
System

5G Click locking system

Take advantage of the 5G Click - the rapid locking technology.

Best choice for floating installation.

- A quicker and easier way to install single boards without tools.
- Significantly reduces installation time.
- The clear "click" sound lets you know when installation is complete.
- Also suitable for full-surface gluing onto the sub-floor.

1. 5G Click: Every single board can be pressed down individually. Clear "click" sound confirms that the board is installed properly.

Environment

Hardwood flooring is a natural product. As a company that works with wood, BOEN has been entrusted with upholding an important legacy.

BOEN flooring is a product of natural materials. Respect for nature and for the requirement of environmental sustainability is reflected in our processing and management of raw materials. BOEN is constantly seeking methods for processing the raw materials in the most gentle and sustainable manner possible.

The raw materials processed at BOEN come from sustainable forests and other controlled sources. Beyond that, the BOEN factories have implemented a chain-of-custody system in accordance with the FSC™ standards. The Forest Stewardship Council™ is a well-known forest certification scheme.

BOEN's production methods are noted for their quality and excellent use of resources. The timber is quickly transported to the sawmill and cut, so that the drying process

can start as soon as possible, thereby avoiding discolouration. The wood is dried under monitored conditions. This allows us to guarantee the highest degree of stability for our floors.

Multi-layer hardwood flooring provides considerable savings in resources compared to solid hardwood flooring. The use of hardwood is limited to the wear layer. Three-fifths of our parquet is based on spruce and pine woods. Sawn and planed chips are by-products that occur naturally and are used in the factory's heating systems for the drying kilns, hot water supply and fuel pellets.

The German Blue Angel label has been awarded to BOEN, confirming that our manufacturing methods produce minimal amounts of waste gas and consequently contribute to a good interior climate.

Our Certificates

Across the globe, **the Forest Stewardship Council™, FSC™**, promotes an approach to forest management that is environmentally appropriate, socially beneficial and economically viable. The companies within the BOEN Group have implemented a

chain-of-custody system in accordance with the standards of the FSC and are able to supply FSC-certified products. BOEN supplies products with the FSC Mix label. All of the products are available as FSC certified on request only. Our

Group license code is FSC™ C009732, certificate number SGSCH-COC-001535. www.fsc.org, FSC – The mark of responsible forestry.

The Real Wood logo is administered exclusively by authorised manufacturers belonging to the European Federation of the Parquet Industry (FEP). The decision in favour of real wood has ecological benefits.

www.blauer-engel.de/uz176

Products with the **Der blaue Engel (Blue Angel)** seal of quality contain very low levels of emissions in order to ensure a healthy indoor climate.

ISO 14001 Certification

The ISO certification 14001 stands for the highest safety regulations and exemplary environmental performance.

Designed by onlyyouqj / Freepik

Wood is a natural product. Each tree has its own structure and individual colour combination. The colour of the floor may change when exposed to light.

As a guideline, dark wood will eventually achieve a more golden tone and light wood will become slightly darker.

SURFACE TREATMENT

Finished surface treated with lacquer or oil. For cleaning and maintenance, we recommend using BOEN Cleaning and Maintenance products that can be found in this pricelist.

AREA CALCULATION

When ordering, the following buffer to the required amount should be added: 3-strip and planks- about. 3-4%. Prestige approx. 4-5%.

DISCLAIMER

Flooring products supplied may differ in colour from the images included in this price list as the photos are to be used as a guide and print errors may occur. We reserve the right to change prices and products any time.
